

PRESS RELEASE

Beactica to present at BioEquity Europe 2019

Uppsala, Sweden – 7th May 2019

Beactica AB, the Swedish drug discovery company, today announced that it has been selected to present at the 20th Annual BioEquity Europe 2019. The conference will take place on 20–21st May in Barcelona, Spain.

Dr Per Källblad, Chief Executive Officer, to present on Monday 20th May 2019 at 2:20 PM. The location is the Crowne Plaza Barcelona Fira Center, Room Vivaldi 1, and the session category is Next Wave.

Beactica's presentation will cover key pipeline and corporate developments as well as plans for advancing its lead asset into preclinical development – This asset is an allosteric modulator of LSD1 that has shown promising preclinical *in vivo* results in several oncology indications, including glioblastoma. Representatives of the Company will also participate in one-to-one partnering meetings with potential investors.

Organised by Biocentury and EBD Group, BioEquity Europe is the most important biopharmaceutical investor conference in Europe. It is the seminal industry event for financial dealmakers looking for investor-validated life science companies positioning themselves to attract capital, and for pharmaceutical licensing professionals to assess top prospects.

About Beactica

Beactica AB is a specialist drug discovery company, utilising its proprietary methodologies to evaluate the interactions of molecules in order to generate novel therapeutics. As well as progressing its own drug discovery programmes in areas of unmet medical need, Beactica offers partnerships for fragment-based lead generation using its proprietary discovery platform. Founded in 2006 based on research carried out at Uppsala University, Beactica has established a reputation as a world-leader in fragment-based drug discovery using SPR biosensor technology.
